

## 6 piece set: Diesel multiple unit VT 601 "Max Liebermann", DR

7760010 | DR

railway company: DR

349,90€

Photomontage

Diesel multiple unit set, Class 601, of the Deutsche Reichsbahn.

The set contains two power cars (one motorised) and four intermediate coaches.

- Version as IC "Max Liebermann"
- Operating condition: 1990
- Livery and lettering true to the original model
- Equipped with factory-installed interior lighting

One of the legendary TEE multiple units made a spectacular comeback in the summer of 1990. Leased by the Deutsche Reichsbahn as a ten-coach train formation, including a spare power car, it operated regularly as InterCity "Max Liebermann" between Hamburg and Berlin from August 1 to September 29—just before the reunification of East and West Germany—following in the footsteps of an equally legendary predecessor. As early as the 1930s, the DRG had established a multiple-unit rail link between these two cities with the "Flying Hamburger".

## General data

|                                     |                                |
|-------------------------------------|--------------------------------|
| Coupling                            | In-house produced coupling     |
| Minimum radius                      | 225 mm                         |
| Flywheel                            | yes                            |
| Number of driven axles              | 2                              |
| Number of axles with traction tyres | 2                              |
| EAN                                 | 9005033389437                  |
| Interior fitting                    | Model with interior furnishing |
| Scale                               | N                              |
| Epoch                               | IV                             |
| Railway Company                     | DR                             |

## Electrical

|                   |   |
|-------------------|---|
| Motor             | 3 pole motor  |
| Head light        | 3 headlight, dependent on the direction of travel/2 tail lights, dependent on the direction of travel |
| LED head light    | yes   |
| Interior lighting | Yes, LED  |
| Control           | DC Analog   |
| Interface         | Electrical interface for traction units according to NEM 651 standards with plug-in fixture           |

## Measurements

|                      |        |
|----------------------|--------|
| Length over coupling | 710 mm |
|----------------------|--------|
