

4 piece set: Electric multiple unit ICE 1 (Class 401) "30 Years of ICE", DB AG

7770012 | **DB-AG**

railway company: DB-AG

479,90€

Photomontage

4-piece starter set for the ICE 1 multiple unit of the Deutsche Bahn.

The set contains a class 401.0 power car (motorised), a type 801.8 1st class coach, a type 802.8 2nd class coach and a type 401.5 power car (not motorised).

- Power cars in "30 Years of ICE" design
- One power car is motorised
- Each power car is equipped with Sound for the first time
- Authentic IGBT sound

The era of high-speed transport at the Deutsche Bundesbahn began in the summer of 1991 with the introduction of the ICE 1. For the first time, an entirely new railway system was introduced, comprising newly developed multiple units, dedicated high-speed lines, and comprehensive timetable restructuring. The railcar concept, featuring closed, wide gangways between coaches, was groundbreaking for modern high-speed rail travel. With a maximum service speed of 280 km/h and a high level of passenger comfort, the ICE 1 revolutionised long-distance rail transport and gained significant market share in competition with both road and air travel.

General data

Coupling	NEM shaft 355 with close coupling mechanism
Minimum radius	192 mm
Flywheel	yes
Traction tyres	2
Number of driven axles	4
EAN	9005033389475
Interior fitting	Model with interior furnishing
Scale	N
Epoch	VI
Railway Company	DB-AG

Electrical

Interior lighting Article number	944701, 945301
Head light	3 headlight, dependent on the direction of travel/2 tail lights, dependent on the direction of travel
LED head light	yes
Additional light function	yes
Sound	yes
Interior lighting	Retrofittable
Control	DC Digital
Interface	Electrical interface for traction units Next18
Digital decoder	Function decoder, Next18

Measurements

Length over buffer

588 mm
