

Diesel locomotive 2016 015-7, ÖBB

7310087 | **ÖBB**

railway company: ÖBB

329,90€

Diesel locomotive 2016 015 of the Austrian Federal Railways.

- Attached exterior mirrors in folded and extended positions
- Extra applied grab rails, windscreen wipers and UIC sockets
- Colour-contrasting brake discs
- With PluX22 interface and LED headlight
- In digital operation with switchable high beam and separately switchable headlight or tail light

Like the 'Taurus' locomotives, the Class 2016 was also given a classical name—'Hercules'—in reference to the hero of Greek mythology known for his superhuman strength.

Between 2002 and 2004, a total of 100 diesel-electric universal locomotives were put into service by the ÖBB. The locomotive supports both multiple traction and push-pull operations. With an engine output of 2,000 kW and a top speed of 140 km/h, it is suitable for mainline service. Thanks to its 20-ton axle load, it can also be deployed on branch lines.

General data

Coupling	NEM shaft 362 with close coupling mechanism
Minimum radius	358 mm
Flywheel	yes
Number of driven axles	4
Number of axles with traction tyres	1
Article number	7310087
EAN	9005033384517
Scale	H0
Epoch	VI
Railway Company	ÖBB

Electrical

Head light	3 headlight, dependent on the direction of travel/2 tail lights, dependent on the direction of travel
LED head light	yes
Additional light function	yes
Sound	yes
Control	DC Digital
Interface	Electrical interface for traction units PluX22
Digital decoder	PluX22

Measurements

Length over buffer	221 mm
