

Electric locomotive 193 996-3, RTC

7500191 | **EINSTELLER**

railway company: EINSTELLER

269,90€

Photomontage

Electric locomotive 193 996 of Rail Traction Company.

- The only Vectron with the two-colour "zebra" design – ideal addition to the locomotion collection
- Used in international freight traffic
- Free-standing handle rails, in part made from metal
- Multi-coloured control panel and rear driver's cab wall
- Switchable headlight/rear light with DIP switch

Munich-based Lokomotion has been operating transalpine freight for more than twenty years. Since then, it has become known among railway enthusiasts for its diverse fleet of "zebra" locomotives, whether on the Brenner axis to Italy or the Tauern route to Slovenia as well as the Danube axis towards Eastern Europe. Lokomotion provides the transport services in close cooperation with DB Cargo and Italian Rail Traction Company, which hold shares in the Munich-based company. The blue stripes stand for Bavaria and the red stripes for South Tyrol.

General data

Coupling	NEM shaft 362 with close coupling mechanism
Minimum radius	358 mm
Flywheel	yes
Number of driven axles	4
Number of axles with traction tyres	1
Article number	7500191
EAN	9005033387792
Scale	H0
Epoch	VI
Railway Company	EINSTELLER

Electrical

Head light	3 headlight, dependent on the direction of travel/2 tail lights, dependent on the direction of travel
LED head light	yes
Additional light function	yes
Control	DC Analog
Interface	Electrical interface for traction units PluX22

Measurements

Length over buffer	218 mm
